

**SERIES RFRM Rear-fed Fuse & Relay Module**

**POWER  
DISTRIBUTION MODULE**

Cooper Bussmann Transportation Products now offers a fully sized power distribution module capable of operating in harsh environment applications. Based on the industry standard 2.8mm (mini) footprint, the RFRM can accept plug-in fuses, relays, circuit breakers, resistors, and diodes to meet multiple power management requirements. The RFRM is available with multiple internal bussing options, accommodating various OEM wiring requirements.

The RFRM provides efficient power distribution suitable for a wide variety of applications including:

- ◆ Marine
- ◆ Construction
- ◆ Agriculture
- ◆ Heavy Trucking
- ◆ Coach / Bus
- ◆ Specialty Vehicles

**SPECIFICATIONS:**

Material:	UL-Rated 94V0 Rated thermoplastic, Copper Bus Bar, Silicone Rubber Gasket
Power Ratings:	32V, 100A per bus bar, 300A Max.
Ingress Protection:	IP 66 (with use of cover and seal)*
Plug-in Capacity:	Up to 10 Micro Relays and a combination of 40 Fuses/Circuit Breakers
Termination:	M8 x 1.25 thread, 70 lbf-in max
Mounting:	#10-32 or M5 x 0.8 available, 24lbf-in max

\* Ingress Protection rating has been validated with approved panel mounting applications. Consult factory for testing procedures.
